

CONNECTING St Luke's Concord-Burwood - Aug 1

Dear friends.

It has been good to see a little sunshine after the beautiful rain. I hope you are finding some encouragement as we move through winter at this unusual time.

Yesterday, after Wednesday Church, we learnt how to use St Luke's new defibrillator [kindly donated]. It seems that St Luke's is a great church for all of us who have a heart!

Please see my sermon notes also attached. When I am speaking on Wednesdays, I will continue a four-part series looking at Psalm 139: "Lord you have searched me and you know me". We are reminded that our God "sees and knows and cares".

Last week David Warner took the funeral of Stephen Eslake. Stephen was a St Luke's Youth Group leader and involved in CEBS. Our sympathy goes to his wife, Kim, and daughter, Alison.

I didn't know Steve in earlier days but it was always an encouragement to see Steve and Alison [pushing her dad's wheelchair] coming to church for "Back to St Luke's Days" etc. We pray the family will find comfort knowing that our God does indeed see and know and care.

Gail joins with me in sending prayerful best wishes,

Ken
